Motivated and detail-oriented Full Stack Developer with a strong focus on Frontend technologies. Passionate about building responsive, user-friendly web applications using modern frameworks and clean code practices. Seeking an opportunity to apply technical skills, creativity, and problem-solving abilities to deliver impactful digital solutions while continuously expanding my expertise.

EXPERIENCE

National Telecommunication Institute – NTI

Full Stack Development Trainee

Jul 2025 – Aug 2025, Remote

- Developed and deployed dynamic web applications using **HTML**, **CSS**, **JavaScript**, and **React** for responsive and user-friendly interfaces.
- Built and integrated backend services using **Node.js** and **Express**, ensuring scalable and secure APIs.
- Designed and optimized **MySQL** databases for efficient data storage and retrieval.
- Collaborated in team-based projects, applying **Git/GitHub** for version control and Agile methodologies for project management.
- Delivered a capstone project integrating frontend and backend, demonstrating strong problem-solving and full project lifecycle skills.

University Projects & Training Programs

Technology & Innovation Trainee

Academic Years 2023 – 2026, On-site & Hybrid

- Designed and programmed Arduino projects for smart system applications.
- Applied **Data Science** techniques in academic research and practical assignments.
- Participated in introductory **Cybersecurity** workshops, learning fundamentals of network and data protection.
- Explored AI concepts through hands-on exercises, improving understanding of neural networks and automation tools.

EDUCATION

Culture and Science city-6_october (CSI)

Bachelor's Degree in Computer Science

PROJECTS

[View All Projects](#)

- **Responsive Portfolio Website**
Developed a personal portfolio using **HTML**, **CSS**, and **JavaScript** to showcase projects and skills. Implemented responsive design principles for optimal viewing across devices.

- **E-Commerce Web Application**
Built a full-stack e-commerce platform using **React.js** for the frontend and **Node.js/Express** for the backend. Integrated **MySQL** database for product management and user authentication.
- **Task Management System**
Created a web-based application for managing tasks and deadlines using **JavaScript** and **Bootstrap**. Added CRUD functionality with backend support via **Node.js**.
- **Weather App**
Developed a weather forecasting app using **JavaScript** and OpenWeather API, displaying real-time weather data with dynamic UI updates.
- **Arduino Smart Home System (University Project)**
Designed and programmed an Arduino-based system to control lights and monitor environmental conditions remotely.
-

SKILLS

- **Programming & Tools:** C++, JS, bootstrap, SQL, MySQL, Git, GitHub, laravel, frontend frameworks
Html, css, node.js, react.js
- **Interpersonal Skills:** Management, Organization Skills, Problem Solving, Communication, Teamwork.
- **Languages:** English B1, Arabic Native

CERTIFICATIONS

- **Full Stack Development** – National Telecommunication Institute (NTI), 2025
- **Web Development & Programming Fundamentals** – University Training Programs, 2023–2025
- **Backend Development with PHP** – MaharaTech, 2025
- **JavaScript Programming** – MaharaTech, 2025
- **Unique Value Proposition (UVP)** – HP LIFE Online Learning, 2025

Volunteering

- **AI Catalyst – Event Organizer**
May 2024
- Assisted in organizing the **DotPy** tech event at Nile University, focusing on Python and AI applications.
- Coordinated with speakers, participants, and volunteers to ensure smooth event flow.
- **Resala Charity Organization – Volunteer**
Multiple Occasions, 2023 – 2025
- Participated in various community service initiatives, including fundraising and social support activities.
- Contributed to event organization and resource distribution for underprivileged communities.

- NASA SPACE APPS Challenge – Participant

Issued Oct 2025 · Expires Oct 2025
